# Freezing Britain

The winter of 2010 led to a four-fold rise in the number of reported burst pipes due to the coldest winter in Britain for 31 years...

Whether you're the foreman of a building site or the supplier of portable on-site buildings, Cable Services have a wide range of trace heating product solutions, to help protect against the freezing of pipes.

- Our kits make protecting your pipes from freezing this winter both easy and affordable.
- Helps reduce valuable work downtime.
- Self-regulating systems.
- All types of commercial applications.

**Don't get caught out this winter, contact Cable Services for your trace heating solution.**

This could be you!

To Place an order or for a FREE trace heating design proposal, please contact your Cable Services sales team - [www.cableservices.co.uk](http://www.cableservices.co.uk)
